Streamlined Cloud Note

Our solution enables students to upload notes and materials to study sync cloud powered by PipeOps cloud, enhancing note-taking in busy classes and reducing costs by eliminating the need for physical study materials.

AI Study Modules

Our AI vision model does the heavy lifting, streamlines studying by scanning and summarizing notes into manageable modules, offering customized AI generated quizzes for evaluation.

CGPA Tracker

Enables students to keep track of their academic performance, record and manage their grades in various courses over time. providing students with a clear and comprehensive overview of their academic performance.

KEY FEATURES:

Smart Study Plan

Auto generate study plans from your uploaded study materials, which is been summarized into manageable modules by Ai

Cloud Note Storage

it enables students to upload notes and materials to study sync powered by PipeOps cloud, enhancing note-taking in busy classes and reducing costs by eliminating the need for physical study materials.

CGPA Tracker

Calculate and track cumulative GPA by inputting grades. Includes features for predictive analysis and visual tracking of GPA trends over time.

Quiz Evaluation

Auto generated Ai quiz based on the uploaded notes, ensuring mastery of the material.

All in One Learning Productivity Tool

Study sync is focused to seamlessly increase your academic productivity, by giving you the freedom to bring in your traditional notes, use Ai to generate simple to read modularized study plans based on your notes, instant quiz feedback for your evaluation,   track your GPA to enhance your academic performance.

Reading lengthy instructional material can significantly reduce student productivity and hinder academic performance. Study Sync aims to enhance student success by breaking down complex knowledge into simplified, easily understandable concepts..

StudySync

Personalise your Study Schedule

The "Smart Study Plan" feature is your personalized academic strategist, designed to optimize your learning journey. It creates modularized medium quick to read notes that maximize efficiency and effectiveness. It integrates seamlessly with your existing uploaded notes, providing adaptive recommendations and progress tracking to ensure you stay on target.

Target Audience

University Students

Nigeria boasts a wide range of higher education institutions with over 1.8 million populace, including federal, state, and private universities. Each type of institution has its unique challenges and opportunities.

Polytechnic Students

Nigeria has numerous polytechnics, including federal, state, and private institutions. These polytechnics offer a variety of National Diploma (ND) and Higher National Diploma (HND) programs in fields such as engineering, technology, business studies, agriculture, and environmental science.

College Students

Nigeria has a range of colleges including colleges of education, agriculture, health technology, and other specialized institutions. These colleges offer diplomas, certificates, and sometimes degree programs aimed at specific professional skills.

Business Model

Students across various universities typically spend between #4,000 to #5,000 on printing reading materials daily. However, with Study Sync, this expenditure can be drastically reduced. By subscribing to Study Sync, students only need to spend a small percentage of their traditional printing costs to read online. This shift not only represents significant savings but also offers a more convenient and sustainable approach in increasing academic performance
